Ex Alan Jordan Collection.

Under Count Stephen in 1516 rich deposits of silver ore were discovered in the Bohemian basin. It rapidly became at that place a thriving mining town. In 1517 the site was renamed Jachymov - in analogy to the Erzgebirge mountain places named after saints Marienberg, Annaberg and Josef village. In 1520 Stephen and his brothers were awarded by the Czech parliament the right to mint silver coins, with one side the coat of arms and a representation of the Bohemian king (lion) and on the other side the holy Joachim with the coat of arms of the Counts of Schlick. It is noteworthy that the document still preserved, was written in Czech. It is referred to as the 'St. Joachim Thaler'. This guldengroschen enjoyed tremendous popularity and its name was quickly shortened to thaler, the name by which it was continued to be used over the next four centuries. The name still lives on today in the American dollar and the Russian ruble.

Ex Alan Jordan Collection.

The issue is very rare. This piece has correct weight, thickness and diameter as published by Kann, however the striking is weak, it comes from different dies to the Baldwin published example. The Chinese letters in some cases shows doubling on several characters but that could be from lack of initial pressure on the dies as the dragon itself shows weakness on the high point of its scales.

Mid-12th century Provence is a perfect example of the complex systems of marriage alliances that characterized European politics at the time. The Catalan rulers of Aragon desired lands in southern France, but these were held by the counts of Toulouse. As the ruler of Toulouse, Raymond IV, was excommunicated and thus out of favor of the church, Raimond-B reneger III of Barcelona was able to obtain permission to marry Douce I, countess of Provence, and the two ruled jointly until Douce's death. The territory would remain in Aragonese hands through the House of Barcelona until Raimond IV (V) died without male heirs in 1245. The title would then pass to his daughter, Beatrice, and her husband, Charles d'Anjou. (courtesy of CNG).
